Dear Sirs,

Re: Announcement No. 2
Tender for the supply of a Pilot Boat (the "Tender")
Tender No. 2455/YAM/13

1. Further to requests for interpretations, clarifications or corrections submitted APC with respect to the Tender, we wish to inform you as follows:

Question: We are going through the specs of the Ashdod Pilot boat and discovering contradictions in there. Service or cruising speed of 23 knots with corresponding endurance and fuel capacity. Same specs attachment A is speaking of service speed 12 or again 23 knots?

APC's answer: The technical requirements for speed are as specified in attachment A section B - Technical Mandatory Requirements (TMR) and as follows:

- Fuel capacity to operate without refueling for at least 20 (twenty) hours at the cruising speed of about 12 Knots, with 10% spare.
- Service speed of 23 knots or more.

2. All other provisions included in the Original Announcement remain the same.

Please sign and submit this Announcement within your Technical Proposal to be submitted with respect to the Tender.

Sincerely,

Ayelet Mandler

Secretary of the Tender Committee

Cc: Members of the Tender Committee
